

## **Optec to demonstrate its Next-Gen Multifibers Engineering Excellence at OFC 2015**

**HONG KONG, January 23, 2015** - Optec Technology Limited, a leader in fiber optic interconnect and assembly products, today announces it will be participating at OFC 2015 in Los Angeles during March 24 to March 26.

Booth location: Booth 2330  
Venue: Los Angeles Convention Center, Los Angeles, CA, USA  
Exhibition period: 24th - 26th March 2015  
URL: [www.ofcconference.org](http://www.ofcconference.org)

During the Exhibition, Optec will showcase the newest technology on MT-based multifibers interconnect solutions on various applications, from board level Silicon Photonics application to ultra-high density usage for data centers and enterprise networks. At the show, Optec will demonstrate its commitment on sticking close to technological needs on connectivity, and to highlight how the evolved technology revolutionized the network cabling in nowadays Big Data era.

### ■ **MXC Cable Assemblies for Embedded Optical Modules**

- Direct interface to equipment densely populated with mid-board mounted optical modules
- Up to 64-fiber at 25Gbps, with 1.6 terabytes transfer rate per cable

### ■ **PRIZM® LightTurn® Fiber Assemblies**

- The board level fiber solution for high-speed board mounted Parallel Optical Device (POD) modules
- Embedded parallel optic technology which significantly increases the optical T/R module density on PCBs

### ■ **MT-based Active Optical Cable (AOC) Sub-assemblies**

- The sub-component level MT-based internet solution for AOC for supporting high bit-rate multiple protocols including Ethernet, InfiniBand? or Fiber Channel

#### ■ **MT-based Ultra-high Density Cabling Solutions**

- Very high fiber count MTP/MPO assemblies (1x48F, 1x72F) for bandwidth-hungry applications
- MTP/MPO Jumper for 40G QSFP & 100G CXP for high speed future proofing data centers

#### ■ **IP-68 MTP/MPO Harsh Environment Connector**

- MT-based pre-connectorized cable solution for Outside Plant (OSP) and any harsh environments
- Sealed to IP-68 for utmost protection, delivers distinguished performance in robustness and reliability to deal with the environmental changes

#### **About Optec Technology Limited**

Optec Technology Limited is the world's leading fiber termination solutions provider which serves extensive optical networks throughout public and private sectors. Its wide variety of multifibers products includes board mounted solution for embedded optical modules, high-density 40G/100G applications, to MT-based outdoor harsh environment solutions. Please visit [www.optec.com.hk](http://www.optec.com.hk) for more information.

#### **Optec Technology Limited**

Suite 1701, 17/F., North Tower, World Finance Centre,  
Harbour City, 19 Canton Road, Kowloon, Hong Kong.
